CLEAN-O-MAT PWT

The biological parts cleaning

The biological parts cleaner Clean-o-mat PWT removes processing oils, cooling lubricants and light greases. The pollutions are immediately dismantled by the natural one microorganisms.

Basic equipment:

- New triple filtration design (Coarse filter, fine filter, magnet)
- filterbag
- Usable area 730 x 520 mm with load capacity 100 kg
- Unit out of plastic (PE) (no risk of corrosion)
- Extra easy to maintain (control box contains the complete control- and pump device. This can be exchanged fast and easy at malfunction)
- Drain device makes the exchange of the bio cleaner easier

Coarse filter, fine filter, magnet

Brush cleaning

Wash-up system

(standard) Filterbag

(Option) Fine filter

Technical data PWT:	
Clean-o-mat PWT	
Working height	980/910 mm
Inside dimension	B 730 x T 520 mm
Load capacity	Max. 100 kg
Operating temperature	41° C
Heating	650 W
Pump	40 W
Optimal filling capacity	90 Liter
Material	LDPE
Weight (empty)	45 kg
Electric connection	230 V, 50 Hz

No liability accepted for specifications, which are subject to alteration.
